Herpetofauna

Dunn RR (2004) Recovery of faunal communities during tropical forest regeneration. *Conservation Biology*. **18**; 302-309

Ernst R, et al., (2008) Patterns of community composition in two tropical tree frog assemblages: separating spatial structure and environmental effects in disturbed and undisturbed forests. *Journal of Tropical Ecology*. **24**; 111-120

Fredericksen NJ, & Fredericksen TS (2004) Impacts of selective logging on amphibians in a Bolivian tropical humid forest. *Forest Ecology and Management*. **191**; 275-282

Gardner, T.A., Ribeiro, M.A. Jr, Barlow, J., Ávila-Pires, T.A.S., Hoogmoed, M. & Peres, C.A. (2007) The value of primary, secondary and plantation forests for a neotropical herpetofauna. *Conservation Biology*. **21**; 775–787.

Gardner, T.A., Barlow, J. & Peres, C.A. (2007) Paradox, presumption and pitfalls in conservation biology: consequences of habitat change for amphibians and reptiles. *Biological Conservation*. **138**; 166–179.

Gibbons JW, et al., (2000) The global decline of reptiles, Deja Vu amphibians. *Bioscience*. **50**; 653-666

Gillespie, G. R., Howard, S., Lockie, D., Scroggie, M. and Boeadi (2005). Herpetofaunal richness and community structure of offshore islands of Sulawesi, Indonesia. *Biotropica* **37**; 279-290.

Hamer KC, & Hill JK (2000) Scale-dependent effects of habitat disturbance on species richness in tropical forests. *Conservation Biology*. **14**; 1435-1440

Inger RF (1980) Relative abundance of frogs and lizards in forests of Southeast Asia. *Biotropica*. **12**; 14-22

Ribeiro MA, et al., (2008) Evaluating the Effectiveness of Herpetofaunal Sampling Techniques across a Gradient of Habitat Change in a Tropical Forest Landscape. *Journal of Herpetology*. **42**; 733-749

Civets

Jennings, A., Seymour, A.S. & Dunstone, N. (2006). Ranging behaviour, spatial organisation, and activity of the Malay civet (*Viverra zibellina*) on Buton Island, Sulawesi. *Journal of Zoology*, **268**: 63 – 71.

Lee, R.J, Riley J., Hunowu I. & Maneasa, E. (2003). The Sulawesi palm civet: expanded distribution of a little known endemic viverrid. *Oryx* **37**(03): 378-381.

Treves, A. & Karanth, K.U. (2003). Human-carnivore conflict and perspectives on carnivore management worldwide. *Conservation Biology* **17**: 1491 – 1499.

Colón, C.P. (2002). Ranging behaviour and activity of the Malay civet (*Viverra zibellina*) in a logged and an unlogged forest in Danum Valley, East Malaysia. *Journal of Zoology* **257**: 473- 485.

Whitten, T., Mustafa, M. & Henderson, G.S. (2002). *The Ecology of Sulawesi*. Periplus Press, Hong Kong and Singapore.

Colón, C.P. (1999). Ecology of the Malay civet (*Viverra zibellina*) in logged and unlogged forests of Sabah, East Malaysia. Unpublished Ph.D. thesis, Fordham University, New York.

Schreiber, A., Wirth, R., Riffel, M., & Van Rompaey, H. (1999). Weasels, Civets, Mongooses and their Relatives: An Action Plan for the Conservation of Mustelids and Viverrids. IUCN, Gland, Switzerland.

Clark, T.W., Curlee, P. & Reading, R.P. (1996). Crafting effective solutions to the large carnivore conservation problem. *Conservation Biology* **10**: 940 – 948.

Heydon, M.J. & Bulloh, P. (1996). The impact of selective logging upon sympatric civet species (Viverridae) in Borneo. *Oryx* **30**: 31-36.

Joshi, A.R., Smith, J.L. & F.J. Cuthbert. (1995). Influence of food distribution and predation pressure on spacing behavior in palm civets. *Journal of Mammalogy* **76**: 1205-1212.

Rabinowitz, A.R. (1991). Behaviour and movement of sympatric civet species in Huai Kha Khaeng Wildlife Sanctuary, Thailand. *Journal of Zoology* **223**: 281-298.

Wemmer, C. & Watling, D. (1986). Ecology and Status of the Sulawesi Palm Civet *Macrogalidia musschenbroekii* Schelgel. *Biological Conservation* **35**: 1-17.

Bats

Cossons JF, et al., (1999) Effects of forest fragmentation on frugivorous and nectarivorous bats in French Guiana. *Journal of Tropical Ecology*. **15**; 515-534

Evelyn MJ, & Stiles DA (2003) Roosting requirements of two frugivorous bats (*Sturnira lilium* and *Arbeteus intermedius*) in fragmented Neotropical forest. *Biotropica*. **35**; 405-418

Hodgkison R, et al., (2004) Habitat structure, wing morphology, and the vertical stratification of Malaysian fruit bats (Megachiroptera : Pteropodidae). *Journal of Tropical Ecology*. **20**; 667-673

Lane DJW, et al., (2006) Dramatic decline in bat species richness in Singapore, with implications for Southeast Asia. *Biological Conservation*. **131**; 584-593

Muscarella R, & Flemming TH (2007) The role of frugivorous bats in tropical forest succession. *Biological Reviews*. **82**; 573-590

Richards GC (1995) A review of ecological interactions of fruit bats in Australian ecosystems. *Symposia of the Zoological Society of London*. **67**; 79-96

Struebig MJ, et al., (2006) A bat survey in Sungai Wain Protection Forest, East Kalimantan, Indonesia. *Malayan Nature Journal*. **59**; 189-196

Struebig MJ, et al., (2006) Bat diversity in oligotrophic forests of southern Borneo. *ORYX*. **40**; 447-455

Primates

Priston, N.E.C, in press, Exclosure plots as a mechanism for quantifying damage to crops by Primates *International Journal of Pest Management*

Priston NEC & Underdown SJ. (2009) A Simple Method for Calculating the Likelihood of Crop Damage by Primates: An Epidemiological Approach. *International Journal of Pest Management* 55 (1): 51-56

Linkie M, Dinata Y, Nofrianto A & Leader-Williams N. (2007). Patterns and Perceptions of Wildlife Crop Raiding in and Around Kerinci Seblat National Park, Sumatra. *Animal Conservation*. **10**: 127-135.

Hill CM. (2000). Conflict of Interest Between People and Baboons: Crop Raiding in Uganda. *International Journal of Primatology*. **21** (2): 299-315.

Siex KS & Struhsaker TT. (1999). Colobus Monkeys and Coconuts: a Study of Perceived Human-wildlife Conflicts. *Journal of Applied Ecology*. **36**: 1009 - 1020.

Naughton Treves L (1998) Predicting patterns of crop damage by wildlife around Kibale National Park. *Conservation Biology*. **12**(1); 156-168

Kilner TJ (2001) A preliminary study of the behaviour and ecology of the Buton macaque (*Macaca brunnescens*). *Primate Eye*. **74**: 24-31

Melfi, VA, & Feistner, ATC (2002) A Comparison of the Activity Budgets of Wild and Captive Sulawesi Crested Black Macaques (*Macaca nigra*). *Animal Welfare*, **11**; 213-222

Kohlhaas AK (2001) Title: Social activities of a Sulawesi macaque, *Macaca nigrescens*. *The 18th Congress of the International Primatological Society*. 460

Thierry B, Bynum EL, Baker S, Kinnaird MF, Matsumura S, Muroyama Y, O'Brien TG, Petit O, & Watanabe K (2000) The social repertoire of Sulawesi macaques. *Reichorui Kenkyu/ Primate Research*. **16**(3); 203-226

Rosenbaum B, O'Brien TG, Kinnaird M, & Supriatna J (1998) Population densities of Sulawesi crested black macaques (*Macaca nigra*) on Bacan and Sulawesi, Indonesia: Effects of habitat disturbance and hunting. *American Journal of Primatology*. **44**(2);89-106

Kohlhaas AK (1998) Activity patterns of a Sulawesi macaque, *Macaca nigrescens*, in relation to environmental change and fruit availability. *Congress of the International Primatological Society*. **17**; 121

Reed C, O'Brien TG, & Kinnaird MF (1997) Male social behavior and dominance hierarchy in the Sulawesi crested black macaque (*Macaca nigra*). *International Journal of Primatology*. **18**(2); 247-260

O'Brien, TG, & Kinnaird, MF (1997) Behaviour, Diet, and Movements of the Sulawesi Crested Black Macaque (*Macaca nigra*). *International Journal of Primatology*, **18**(3); 321-351.

Kohlhaas A, & Southwick CH (1996) *Macaca nigrescens*: Grouping patterns and group composition in a Sulawesi macaque. *Evolution and ecology of Macaque societies*. J.E. Fa D.G. Lindburg, Editors. New York: Cambridge Univ Press. 1996. Pgs: 132-145

Menon, S. & Poirier, FE (1996) Lion-Tailed Macaques (*Macaca silenus*) in a Disturbed Forest Fragment: Activity Patterns and Time Budget. *International Journal of Primatology*, **17**(6); 969-985.

Kinnaird MF, & O'Brien TG (1994) Intergroup interactions in *Macaca nigra*: A random walk or resource defense? *Congress of the International Primatological Society*. **15**; 301

Kurup, GU, & Kumar, A. (1993) Time Budget and Activity Patterns of the Lion-Tailed Macaque (*Macaca silenus*). *International Journal of Primatology*, **14**(1); 27-39.
